

Bob Murdock

My wife and I moved to Prescott Arizona in 2007. I had visited Arizona many times including seeing my parents in Mesa and my sister in Yuma, so I knew the Prescott area very well . Unfortunately, my wife of 33 years passed away in January 2013 after a year-long battle with cancer.

I still continue to explore this great state in the car and on my Harley. In 2018, I remarried an amazing native Arizonian and life has been pretty busy since then. Her humor and culinary expertise make every day a joy!

We have traveled to Mexico and Alaska. Due to the Pandemic, our plans for Hawaii, Europe and South Africa are temporarily on hold. In short, Life is very good and I'm having an amazing time in retirement.
